

THEME KIT

CABIN KIT SP4239

INSTRUCTIONS

Micro Sticky Spots (Fig. 1)

1. **How to Apply Sticky Spots to Paper:** Press a Sticky Spot onto the area marked with • and lift off the backing paper.

Prepare Parts

1. All cutouts that are printed on card stock are pre-cut. Punch out each component along the pre-cut solid lines.
2. Keep parts for each different cutout together.

Cabin (Fig. 2 and 3)

1. Apply Sticky Spots to the • markings on the Walls of the Cabin. Press the Right and Left Walls to the Front of the Cabin's tabs.

NOTE: We recommend using a ruler or straightedge to line up the Walls of the Cabin.

2. With the Front Wall of the Cabin, fold corners in a 90° angle so three standing Walls are formed.
3. Install the Back Wall of the Cabin, making a complete square by folding each corner at a 90° angle. (Fig. 2)
4. Fold all four Roof tabs inward to match the angle of the Roof.
5. Apply Sticky Spots to the • markings on Cabin Roof tabs.
6. Fold the scored line on the Roof to create a sloped look. Press Roof into place. (Fig. 3)

Chimney (Fig. 4 and 5)

1. Fold the score lines on the sides of the Chimney so that a rectangle is formed.
2. Apply Sticky Spots to the • markings on all tabs.
3. Fold top score lines and tuck the top tabs inside the Chimney. (Fig. 4)
4. The Chimney has a built-in ledge that allows it to easily attach to the Cabin. For ideal placement, position Chimney approximately 1/8 in (0.31 cm) forward from the pitch of the Roof.
5. Apply two Sticky Spots on the side of the Chimney that will face the cabin and press into place (there are no • markings here). (Fig. 5)

Woodpile (Fig. 6)

1. Fold tabs backward on the Woodpile Front at 90° angles, including the bottom tab.
2. Apply Sticky Spots to the • markings on all Woodpile Front tabs.
3. Position the Log Siding Strip so the printed log pattern is facing outwards and place the Log Siding Strip flush with either end of the Woodpile Front. See illustration for assembly.
4. While pressing into place, slowly wrap the Log Siding Strip around the top half of the Woodpile Front until the end of the Strip meets the other end of the Woodpile Base.

Outhouse (Fig. 7)

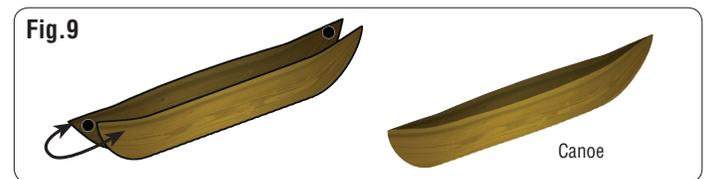

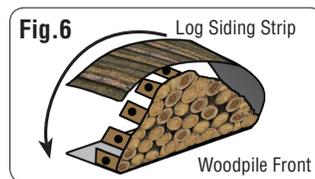

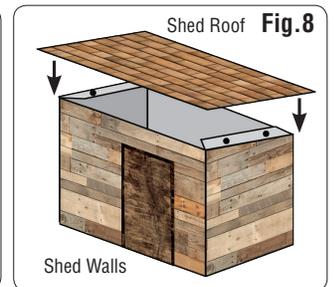

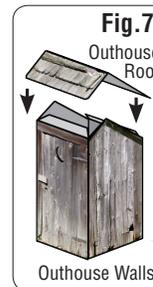

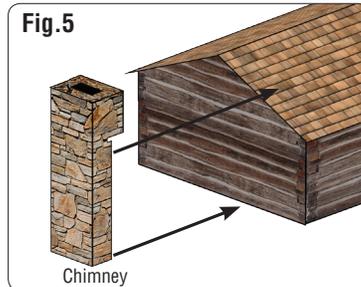

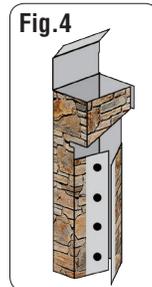

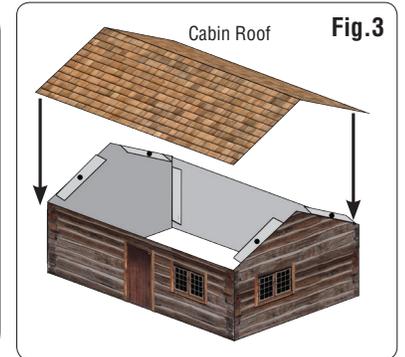

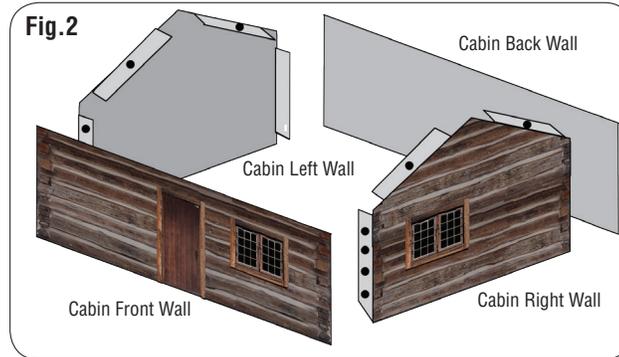

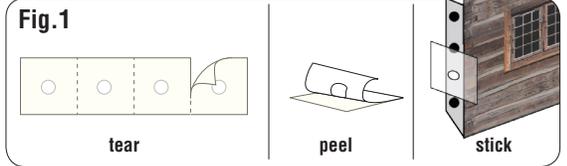

1. Fold all score lines backwards.
2. Apply Sticky Spots to the • markings on the Wall tab.
3. Fold all Wall tabs at a 90° angle so that Outhouse forms a square.
4. Fold Outhouse Roof tabs so they match the angle of the Roof.
5. Apply Sticky Spots to the • markings on each Outhouse Roof tab.
6. Set Outhouse Roof in place with the short end facing the front.

Shed (Fig. 8)

1. Fold all score lines and apply Sticky Spots to the • markings on the Shed's Wall tabs.
 2. Line up the tab that has Sticky Spots with the other Wall's untabbed edge and press into place so a corner is formed. Repeat this step with the other side so that a square is formed.
 3. Fold Roof tabs to match angle of the Roof.
 4. Apply Sticky Spots to the • markings on each Roof tab. Position the Roof so the back end is flush with the back Wall of the Shed, creating an overhang in the front. Press into place.
- NOTE:** If the Roof of the Shed bows out, place one Sticky Spot in the middle of the front Wall's top rim (there are no • markings here). Press the Roof into place.

Canoe (Fig. 9)

1. Fold Canoe along the center dotted line.
2. Apply Sticky Spots to the • markings on both of the curved ends (the bow and the stern).
3. Fold Canoe ends together and press into place.
